# PROJECT MANAGEMENT
## UNIVERSITY OF INVINCIBLES

**Project Goal**- To deliver a dynamic website for the University of Invincibles with all their web applications as a package of the University Student Portal.

**Project objective**- We are a team of IT professionals who have been given the opportunity to update the static website of a university into a Dynamic one with all their web applications used for general administration and tutoring. We are going to run the development stages in the Agile-Scrum methodology and plan the releases accordingly with a target of providing a viable working product on every release.

**Methodology**- Agile Scrum.

**Project Manager tool-** Jira Software Project Manager.

## Must-Have Features in the project

### Student Application Portal

**Objective-** The objective of this feature is to design a separate webpage for the students to log in and view their personal and course-related information that they have enrolled in university and modify their details.

### Student Timetable Portal

**Objective**- This feature will allow the students to view their classes scheduled for the given semester along with the courses and their weightage in a separate webpage designed.

## Should-Have Features in the project

### Student Library Portal

**Objective**- This feature will concentrate on delivering a webpage designed specifically to help the students with the books and academic materials that are available in the university for their usage.

### Student Study Portal

**Objective**- This webpage will allow the students to view their grades and assignments and help them to attend the online classes scheduled if any.

# PROJECT MANAGEMENT
## Could-Have Features in the project

**Student Health Portal**

**Objective**- This feature will help the students to get in touch with their counselors to deal with their daily stress and anxiety and other health-related problems.

**Extracurricular activities Portal**

**Objective**- This feature will help the students to view the list of extracurricular activities available for the students provided by the students and be a part of it and also help them enroll and represent their favorite sport for the university.
